(54) Title: UNIVERSAL COMMUNICATIONS, MONITORING, TRACKING, AND CONTROL SYSTEM FOR A HEALTH-CARE FACILITY

(57) Abstract: A communication and asset locating and tracking system is provided by a wireless high resolution locating and tracking system having a plurality of receivers that are located in different locations in a facility, such as floors, rooms, corridors, common areas and portions thereof within the facility, the locating system is linked to a wireless communication system having a plurality of access points and voice-activated handfree communicators. By issuing a voice command to the communicator, the location of an asset is determined by the asset location system.
